

DANISH BIOIMAGING NEWSLETTER

FEBRUARY 2022

CONTACT

If you have any news you wish to share or questions about the network please contact the network coordinator via info@danishbioimaging.dk

Welcome to 2022 and hopefully a year where the worst of the pandemic is behind us and we can enjoy more networking activities and engage in new DBI collaborations.

Already the new year has brought us cause for celebration. [The 14th of January it was official](#). Danish BioImaging was granted 49,7M DKK from the Ministry of Higher Education and Science to create a multimodal national BioImaging research infrastructure.

2022 will also be a year with a strong focus on international collaborations, both through the [Bridging Nordic Microscopy Infrastructure](#) (BNMI) initiative where the objective is to strengthen the international competitiveness and facilitate the development of world-leading Nordic advanced microscopy environments - and through our activities as a newly appointed node in [Euro-BioImaging](#)

Best regards and wishes for a great 2022 to all of you

/DBI Network Coordinator Rebecca Engberg

Remember to [register](#) to the Image analysis Stakeholder meeting on March 11 with Alexandra Institute - open for everyone!

11 MARCH 2022

Stakeholder meeting:
Bioimage analysis

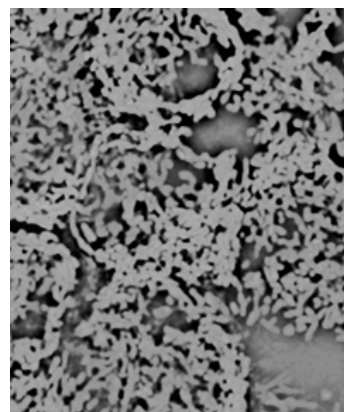

Roadmap Infrastructure grant to Danish Bioluminescence – 49,7M DKK

In 2020 DBI applied to get on the national roadmap for research infrastructure and was successful. In 2022 the success was fortunately followed up by the Ministry's decision to fund the proposal.

Now the work has begun to make DBI a distributed and multimodal national research infrastructure, ensuring that all life scientists in Denmark have open access to the bioimaging technologies they need to boost excellence in research, education, and innovation.

Tuesday, the consortium held a Kick-off meeting to begin the planning of the infrastructure setup. You can expect a lot more information about the work being done and the possibilities it will give – stay tuned here in the newsletter and on the website.

Open calls and positions ([more online](#))

- OPEN CALL [for Mobility Grants for Core Facility Staff in the Nordic countries](#)
- OPEN CALL [for Mobility Grants for Early Career Researchers in the Nordic countries](#)
- DBI OPEN CALL 2022 – [apply here for financial support](#) for activities promoting interaction between DBI network members

Events ([more online](#))

- [Stakeholder meeting for Bioimage analysis – open for everyone](#) - March 11 @ 1:15 pm - 4:00 pm, University of Copenhagen
- [Biological Imaging course](#) - April 25 - June 22 (Deadline: March 28), North and Frederiksberg campus, Copenhagen
- [Bridging Nordic Microscopy Infrastructures 1st meeting](#) - August 17-19, University of Iceland
