

# Danish BioImaging Newsletter

December 2022

Hello and welcome to our last edition of the Danish Bioimaging newsletter for 2022. It has been a busy year with many news to share. Here a look back at some of our highlights this year: the Cross-Institutional BioImaging PhD course, two Image Analysis Stakeholder meetings in collaboration with Alexandra Instituttet and the launching of our new multimodal Danish BioImaging research infrastructure granted with 49,7 M DKK from the Ministry of Higher Education and Science.

Many of you joined our first DBI-INFRA meeting in Odense, where participants from the core facilities around Denmark and representatives from manufacturing companies and Euro BioImaging meet to shape the vision and future development strategy of DBI-INFRA. A great event with interesting technology development talks, work group discussions and poster session displaying who is who within DBI. Thank you all for communicating your needs, visions and hopes for the national infrastructure for the next years. [Check out our website](#) to see more photos of this meeting, and have a look at some of the [presentations](#) of the DBI-INFRA core facilities, what services they offer and the high expertise of their staff.

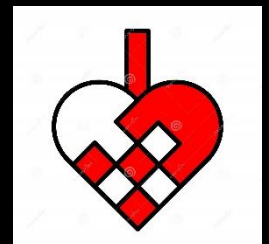

With eyes towards the start of 2023, we look forward to continue our collaboration with all of you, a growing Danish bioimaging community working to strength bioimaging technologies and infrastructures in Denmark.

Best Wishes / DBI Network & DBI-INFRA Coordinator Sonia Diaz

## Danish BioImaging meetings in 2023

The 2<sup>nd</sup> [Bridging Nordic Microscopy Infrastructure](#) (BNMI) Meeting will be organized by DBI and held in Odense. The dates for the meeting are 23<sup>rd</sup> to the 25<sup>th</sup> of August 2023 and the 22<sup>nd</sup> for a BNMI facility manager meeting.

Thanks for your fruitful cooperation during 2022, DBI wishes you a very Merry Christmas and look forward to continuing our collaboration and success in 2023.

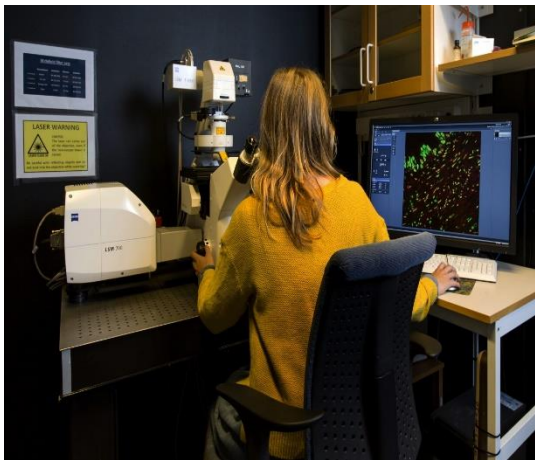

## Open calls (more on our website)

[DANEMO Fellowships](#) for Collaborative Work to researchers and students at Danish research institutions for collaborations **with EMBL**

**Open Call** [Mobility Grants for Core Facility Staff in the Nordic countries](#)

**Open Call** [for Mobility Grants for Early Career Researchers in the Nordic countries](#)

**DBI Open Call 2023** – To promote interactions between network members [apply here for financial support](#)

## Events in 2023 (more on our website)

- [Third stakeholder meeting for BioImage Analysis in Copenhagen with Alexandra Instituttet](#)  
More detail information will be available soon on our website
- [International Master's Degree Programme in Biomedical Imaging](#)  
Organizer University of Turku and Åbo Akademi University

We are now on LinkedIn and Twitter with news updates, articles, videos and much more! **Stay tuned** <https://twitter.com/DBioimaging> and [Danish BioImaging: LinkedIn](#) (remember to follow us!)
